PROFILE

“We have a history of excellence in Website Solutions!”

NetDesain is a web development company founded in 1999. For more than 10 years, NetDesain has been serving its clients in creating websites that are easy to use, easy to modify, and easy in the eye.

NetDesain always changes swiftly in order to improve the way we serve our clients. This makes us can win the competition among Indonesian web designer. NetDesain has now become one of the top web designers in Indonesia. Following the success of NetDesain Bandung, the company expanded its scope to Jakarta. The Jakarta branch office officially operated on July 2001.

To complete our solution to clients, NetDesain offers variety of services starting from website development, website management, domain registration & hosting (www.bisnismedia.com) as well as multimedia development.

PEOPLE

“Some people are experienced, but we are expert in Website Solution!”

NetDesain consists of many young, creative and professional talents from various backgrounds that share the same passion in web development area. We combine our expertise in web development, with the urge to always come up with the best and suitable solutions for our clients.

The NetDesain team will always provide a first class account management to you. Our ultimate objection is simply the satisfaction of our clients. The way we see it, a great result from any projects can only be achieved through a good cooperation and trust between us and the client.

PARTNER

“Only the best partners for the best services!”

To ensure the excellence of our services, we have arranged a partnership with only the best companies. This arrangement is not only mutually beneficial for us, but also favorable for you.
